

The FCC should not implement any law that would diminish the effect of Indiana's Telephone Privacy Law. This law has had a tremendously beneficial effect at my home. I consider unwanted calls a total invasion of privacy, and the Indiana law is currently working wonderfully. This has been one government benefit that I have truly enjoyed. I used to average 1-2 calls per day on Mon thru Sat, now I rarely receive even one and this is what I want. Thank You! Brent Pettijohn
